

BENDING THE CURVE

10

Solutions From The University Of California

***Unveiled At The University of California Carbon Neutrality &
Climate Stability Summit***

**Veerabhadran (Ram) Ramanathan
Chair of the Report**

**October 27, 2015
Scripps Forum, La Jolla**

BENDING THE CURVE

EXECUTIVE SUMMARY

Ten scalable solutions for carbon
neutrality and climate stability

Great Team Work:

- **UC-OP**
- **All 10 Campuses & 3 DOE Labs**
- **Governor's Office**
- **The UC-50 Climate Solutions Group**

Chair:

Veerabhadran Ramanathan

Vice-Chairs

Daniel Kammen

Fonna Forman

Contributors

Juliann E. Allison

Maximilian Auffhammer

David Auston

Roger Bales

Anthony D. Barnosky

Jack Brouwer

Jennifer Burney

James Bushnell

Lifang Chiang

Jon Christensen

William D. Collins

CHAPTERS WRITTEN BY 50 AUTHORS FROM THE 10 CAMPUSES, CARB AND 2 DOE LABS

Collins, W.D., S.J. Davis, R. Bales, J. Burney, R. McCarthy, E. Rignot and D.G. Victor, 2016: Science and Pathways for Bending the Curve, Chapter 1, *Bending the Curve: 10 Scalable Solutions for Carbon and Climate Neutrality*, V. Ramanathan, D. Kammen and F. Forman, Eds., University of California Press, Oakland.

Auffhammer, M., C.-Y. C. Lin Lawell, J.B. Bushnell, O. Deschênes and J. Zhang, 2016: Economic Considerations, Chapter 2, *Bending the Curve: 10 Scalable Solutions for Carbon and Climate Neutrality*, V. Ramanathan, D. Kammen and F. Forman, Eds., University of California Press, Oakland.

Auston, D., J. Brouwer, S. DenBaars, W. Glassley, W.B. Jenkins, P. Peterson, S. Samuelsen and V. Srinivasan, 2016: Assessing the Current and Future Needs for High Impact Technology Research, Development & Deployment for Mitigating Climate Change, Chapter 3, *Bending the Curve: 10 Scalable Solutions for Carbon and Climate Neutrality*, V. Ramanathan, D. Kammen and F. Forman, Eds., University of California Press, Oakland.

Delmas, M., D. Feldman, D. Kammen, M. Mielke, D. Miller, R. Ramesh, D. Rotman and D. Sperling, 2016: How Do We Scale and Implement Technologies and Best Practices to State, National and Global Levels? Chapter 4, *Bending the Curve: 10 Scalable Solutions for Carbon and Climate Neutrality*, V. Ramanathan, D. Kammen and F. Forman, Eds., University of California Press, Oakland.

Allison, J., C. Horowitz, A. Millard-Ball, D. Press and S. Pincetl, 2016: Paths to Carbon Neutrality: Lessons from California, Chapter 5, *Bending the Curve: 10 Scalable Solutions for Carbon and Climate Neutrality*, V. Ramanathan, D. Kammen and F. Forman, Eds., University of California Press, Oakland.

Forman, F., S.B. Hecht, R. Morello-Frosch, K. Pezzoli and G. Solomon, 2016: Chapter 6, Equitable Social Approaches to Climate Change

Mitigation: Institutions, Ideas, and Actions, *Bending the Curve: 10 Scalable Solutions for Carbon and Climate Neutrality*, V. Ramanathan, D. Kammen and F. Forman, Eds., University of California Press, Oakland.

Barnosky, A.D., J. Christensen, H. Han, T. Matlock, J. Miles, R. Rice, L. Westerling and L.D. White, 2016: Chapter 7, Establishing Common Ground: Finding Better Ways to Communicate About Climate Disruption, *Bending the Curve: 10 Scalable Solutions for Carbon and Climate Neutrality*, V. Ramanathan, D. Kammen and F. Forman, Eds., University of California Press, Oakland.

EXECUTIVE SUMMARY: LEAD AUTHORS

Veerabhadran Ramanathan, Juliann E. Allison, Maximilian Auffhammer, David Austin, Anthony D. Barnosky, Lifang Chiang, William D. Collins, Steven J. Davis, Fonna Forman, Susanna B. Hecht, Daniel Kammen, C.-Y. Cynthia Lin Lawell, Teenie Matlock, Daniel Press, Douglas Rotman, Scott Samuelsen, Gina Solomon, David G. Victor, Byron Washom, 2015: Executive Summary of the Report, *Bending the Curve: 10 scalable solutions for carbon neutrality and climate stability*. Published by the University of California, October 27, 2015.

BENDING THE CURVE

3 TRILLION TONS CO2 BY 2030

2030

BENDING THE CURVE

3Tt

2030

2050

EXCEEDING 2 C
BY 2050

***NEED TO WORRY ABOUT
TWO TIME SCALES:***

- ***NOW TO 2030***
- ***2030 TO 2050***

“We are the University of California, and there is no reason that UC can’t lead the world in this quest, as it has in so many others.”

President Janet Napolitano
University of California
2013

Statement issued during the
announcement of the Carbon
Neutrality Initiative of the
University of California

UC AS LIVING LABORATORY FOR BENDING THE CURVE

Buildings: 34% Of CO2

**Internet Of Things
Reduced Peak Demand
By 30%**

**Food Waste: Third
Largest CO2 Emitter**

**Largest Anaerobic
Digester- Us Campus
12 Mwh/Day; Diverts
20kt/Yr Of Waste.**

UC AS LIVING LABORATORY FOR BENDING THE CURVE

Transportation
Largest CO2 growth

- Hydrogen Fuel Cell,
- Bio-Hydrogen
- From sewer waste

Power:
Largest CO2 Source

- 2.8 MW Biogas Fuel Cell;
- 5 MWH Storage;
- 40 kW PV;
- 1.2 mgal Thermal Storage,

SCIENCE SOLUTIONS

- Bend The Warming Curve Immediately By Reducing Short-lived Climate Pollutants & Sustainably By Replacing Fossil-fueled Energy Systems With Carbon Neutral Technologies***

**Source Of Graphics
Climate & Clean
Air Coalition,
UNEP**

SOCIETAL TRANSFORMATION SOLUTIONS

2. *Foster A Global Culture Of Climate Action Through Communication And Education; Develop innovative approaches to change social attitudes and behavior.*

3. *Deepen The Global Culture Of Climate Collaboration: stakeholders, community, and religious leaders with researchers to initiate collaborative actions to mitigate climate disruption*

2 And # 3 Address Intra & Inter Generational Equity

GOVERNANCE SOLUTION

4. Scale Up Subnational Models Of Governance And Collaboration Around The World To Energize National And International Action.

Use the California example [Under 2MoU] to help other state and city level jurisdictions become living laboratories.

MARKET AND REGULATIONS BASED SOLUTIONS

5. *Adopt Market-Based Instruments to Create efficient Incentives for firms and individuals to reduce carbon emissions.*

Cap & Trade And Carbon Pricing

6. *Target direct regulatory measures—such as rebates and efficiency and renewable energy portfolio standards—narrowly at high emissions sectors not covered by market-based policies.*

TERMINATE SUBSIDIES THAT ENCOURAGE EMISSION-INTENSIVE ACTIVITIES.

TECHNOLOGY BASED SOLUTIONS

- 7.** *Promote immediate widespread use of mature technologies.
[photovoltaics, wind turbines, battery and hydrogen fuel cell
electric light-duty vehicles; efficient end-use devices]*

FOR 40% CARBON REDUCTION BY 2030

TECHNOLOGY BASED SOLUTIONS

- 8.** *Aggressively Innovate For Complete Electrification Of Energy & Transportation Systems And Improve Building Efficiency.
[distributed micro-scale grids; new energy storage technologies; heat pumps; fuel cells]*

REQUIRED FOR 80% REDUCTION BY 2050

TECHNOLOGY BASED SOLUTIONS

- 9.** *Immediately make maximum use of available technologies & regulations to reduce methane emissions by 50%, black carbon emissions by 90 % & Phase out hydrofluorocarbons*

CAN BEND THAT CURVE BY 0.6C BY 2050

NATURAL AND MANAGED ECOSYSTEM SOLUTIONS

- 10.** *Regenerate damaged natural ecosystems and restore soil organic carbon. Implement food waste reduction programs & energy recovery systems*

7 BILLION TONS OF CARBON POLLUTION MITIGATION

Message from the Vatican

Oct 26, 2015

I have quickly read through your ten solutions which not only recall God's Ten Commandments but are also very appropriate. The PAS and I fully support you and we are going to organize the event in Paris.

Mgr MARCELO SANCHEZ SORONDO

**Chancellor of the Pontifical Academy of Sciences and
Pontifical Academy of Social Sciences**

“We must combine rigor and imagination to confront climate change: the rigor of scientific facts with the imagination to perceive what is now unseen – the dangers that lie ahead if we do not act.”

Honorable Edmund G. Brown, Jr.

Governor of California

September 25, 2015

*Thank You: UCOP, The Ten-campus+2 DOE Labs UC System
& State Of CA, For The Great Carbon Neutrality Journey*

YOU ARE A BEACON FOR THE WORLD

The UC Slogan for COP-21

BEND THAT CURVE
